Piazza Castello

There are many ways to be an activist and many causes to fight for. We may never feel 'enough', we may not be able to do everything, it may happen that when looking at the big picture, we do not see

what is happening around the corner and sometimes even within ourselves. How do we realise when activism 'calls'? And how do we respond? How often do we ask ourselves in front of an injustice 'what can I do'? Young activists show that it is possible to be 'small' and make a difference, to use one's voice and talents to promote awareness on social and political issues.
